CERTIFICATE OF CALIBRATION

Traffic Light Speed Camera

Serial no: 2226

Set number object code: 201509000121

Date from: 12 September 2017

Date to: 11 September 2018

I, the undersigned certify that the above Gatsometer equipment has been calibrated using equipment traceable to the national or international standards.

The Gatsometer equipment complies with the terms of the specification for Type Approval and has been tested to the standard and conforms to the Red Light Camera handbook and the Speedmeter handbook fourth edition.

The below table shows the equipment used for measuring and testing:

GatsoID	Description	Serial number	Type
1398	Handheld DMM	98950160	Fluke 175
1357	Timer / Counter	SM713	PM6665
1302	Handheld DMM	61650069	Fluke 73-II
1358	Timer / Counter	SM791815	PM6666

All components replaced (when needed) are the same as those type approved.

All timings were found to be within the required tolerance as required in the Red Light Camera handbook and the Speedmeter Handbook 4th Edition.

Gatsometer's quality management system meets the requirements of ISO 9001 for the application area of development, design, manufacturing, sales, calibration and maintenance of traffic enforcement products.

All measurement devices are controlled according to procedure O-05.00 Control of Test and Measurement instruments as stated in the Gatsometer quality management system.

Signed for and on behalf of Gatsometer B.V:

Date: 12 September 2017

E. Hoffman
Quality Assurance Officer
